

ROSLYN SCHOOL DISTRICT 1904-1920

Comments taken from the Roslyn teacher's grade books

More comments are in the grade books; these are only the comments on moving to or from the school district and those who were noted as deceased. Other comments in the grade books have to do with behavior, physical issues (illness, stammering, vision, etc.), and effort.

The comments from 1901-1930 have been indexed by the KCGS, and are available to look at in the library or by contacting a KCGS librarian; (a \$10 donation is suggested for their assistance). This page only goes to 1920, but the indexing is through 1930. Please note that not all teachers made comments in their grade books. Some years (i.e. 1901-1904) did not have notes at all.

Please also note that our idea of grade and age do not necessarily match. In the earlier days, students moved from grade to grade as they passed the test for that grade. They could stay in a grade several years, or pass several grades in one year. Therefore, you can have an 8 year old and 13 year old in 2nd grade, or perhaps a 7 year old in 6th grade. Several siblings were often in the same grade, or the younger was ahead of the older.
